REMARKS

Applicants respectfully request the Examiner to enter the changes in the specification requested above.

The specification has been amended to correct typographical and/or formatting errors, but support for these changes can be found in the application as filed. More particularly, the support for these changes can be found in the Figures (e.g., Figures 13A-13C), or would have been known to one of skill in the art (micromolar (μM) vs. millimolar (mM) concentrations), or would be due to typographical errors (7I vs. 71).

No new matter has been added by virtue of the amendments made to the specification.

CONCLUSION

In view of the foregoing amendments and remarks, the present application is respectfully considered in condition for allowance. An early reconsideration and notice of allowance are earnestly solicited.

It is believed that all outstanding rejections have been addressed by this submission and that all the claims are in condition for allowance. If discussion of any amendment or remark made herein would advance this important case to allowance, the Examiner is invited to call the undersigned as soon as convenient.

Applicants believe that no extension of time is required. If an extension of time is required, Applicants hereby request the Examiner to consider this a conditional petition for an extension of time. Although it is not believed that any additional fee (in addition to any fee concurrently submitted) is required to consider this submission, the Commissioner is hereby authorized to charge our deposit account no. 04-1105 should any fee be deemed necessary.

Respectfully submitted,

Date: June 30, 2006
